L09 — Source Notes

Official source inventory and volatile facts

GenAI Basics · Module 09 · 2026-09-08

Source policy

Sources were checked on 2026-09-08. This module intentionally avoids hard-coding volatile prices, model benchmarks or plan limits in student-facing slides unless they are refreshed immediately before delivery.

Primary sources

Source	URL	Used for
Claude Platform documentation home	https://platform.claude.com/docs/en/home	Developer surfaces: Messages, Managed Agents, cloud platform availability.
Tool use with Claude	https://platform.claude.com/docs/en/agents-and-tools/tool-use/overview	Client tools, server tools, tool_use/tool_result loop, strict tool use, tool cost components.
Prompt caching	https://platform.claude.com/docs/en/build-with-claude/prompt-caching	Automatic/explicit caching, cache hit requirements, metrics, TTL, invalidation caveats.
Files API	https://platform.claude.com/docs/en/build-with-claude/files	Upload once, reference file_id, workspace-level isolation and multi-tenant warning.
PDF support	https://platform.claude.com/docs/en/build-with-claude/pdf-support	PDF input options and platform differences for file_id support.
Context windows	https://platform.claude.com/docs/en/build-with-claude/context-windows	Context as working memory, context rot caveat, compaction guidance, usage counts.
Citations	https://platform.claude.com/docs/en/build-with-claude/citations	Document citation flow and current text-only citation limitation.
Agent Skills overview	https://platform.claude.com/docs/en/agents-and-tools/agent-skills/overview	Cross-surface availability, sharing scope, ZDR/data-retention caveats.
Using Agent Skills with the API	https://platform.claude.com/docs/en/build-with-claude/skills-guide	API integration shape, pre-built vs custom Skills, prerequisites.
Skill authoring best practices	https://platform.claude.com/docs/en/agents-and-tools/agent-skills/best-practices	Concise Skills, lazy loading, metadata-first discovery, test with real usage.
Skills for enterprise	https://platform.claude.com/docs/en/agents-and-tools/agent-skills/enterprise	Governance, vetting, deployment, enterprise risk checklist.
Claude Help: Artifacts	https://support.claude.com/en/articles/9487310-what-are-artifacts-and-how-do-i-use-them	Artifact definition, criteria, examples, enablement and iteration flow.
Claude Help: Publish and share artifacts	https://support.claude.com/en/articles/9547008-publish-and-share-	Publishing vs sharing semantics and access expectations.

	artifacts	

Volatile facts to refresh before delivery

- Artifact availability and enablement path across Free, Pro, Max, Team, Enterprise, Claude Desktop, Claude Code and Claude Cowork.
- Publishing vs organization sharing semantics and whether public links are indexable or controllable by admins.
- Current Claude model names, context sizes, output limits, tool compatibility and platform availability.
- Prompt caching TTL, cache-breakpoint count, metrics names and pricing multipliers.
- Files API data-retention, workspace isolation and multi-tenant guidance.
- Skills availability across Claude.ai, API and Claude Code, and any ZDR/data-retention caveats.
- Cloud-platform feature differences for Bedrock, Google Cloud, Microsoft Foundry and Claude Platform on AWS.

Source-to-slide mapping

Slides	Fact area	Source
4–5	Developer surfaces and cloud options	Claude Platform documentation home
6–7	Artifact definition and workflow	Claude Help: Artifacts
12	Tool-use mental model	Tool use with Claude
13	Files, PDFs and citations	Files API; PDF support; Citations
14	Context and prompt caching	Context windows; Prompt caching
15–16	Skills and enterprise governance	Agent Skills overview; Skills for enterprise; Skill authoring best practices
16	Publishing and sharing	Publish and share artifacts
